

induction brazing copper tubes for condenser

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering, induction melting and induction surface treatment applications
<http://www.uihm.com>

Brazing by induction is faster, safer, more energy efficient and more uniform than gas welding, besides hand operate or handheld method, it can be operated by robot too.
